

# Working of Assignment Tasks | WDDN CE-092

Working of Assignment Tasks for wddn subject week 6.

[nevilparmar24@gmail.com](mailto:nevilparmar24@gmail.com)

## Task 1:

### Insert Page

This page contains text boxes for adding student details and submit buttons. When the button is clicked, data is added into the table.

Insert Student Details	
Student_Name :	<input type="text" value="Nevil Parmar"/>
Student_ID :	<input type="text" value="18ceabc011"/>
Semester :	<input type="text" value="5"/>
Mobile_No :	<input type="text" value="7600616919"/>
E-mail_ID :	<input type="text" value="nevilparmar24@gmail.com"/>
	<input type="button" value="Submit"/>
	<a href="#">Update Data</a>
	<a href="#">Delete Data</a>
	<a href="#">View Data</a>

## Invalid Insertion:

Insert Student Details	
Student_Name :	<input type="text" value="Bill Gates"/>
Student_ID :	<input type="text" value="18ceabc012"/>
Semester :	<input type="text" value="5"/>
Mobile_No :	<input type="text" value="123456789"/> *Invalid Mobile no
E-mail_ID :	<input type="text" value="bill.gates@gmail.com"/>
	<input type="button" value="Submit"/>
	<a href="#">Update Data</a>
	<a href="#">Delete Data</a>
	<a href="#">View Data</a>

## Show Details :

This page displays the content of the student table in the gridview.

Show.aspx				
ID	Name	Sem	Mob_no	email_id
18ceabc011	Nevil Parmar	5	7600616919	nevilparmar24@gmail.com
18ceabc012	Bill Gates	5	1234567890	bill.gates@gmail.com

### Edit Details:

It has one textbox. When a user enters a student ID in the textbox and clicks on the fetch button, details of that student are fetched in other textboxes on the same page. After doing editing, when the user clicks on the submit button, the values are updated in the database.

Edit Student Details	
	Search by ID
Student_ID :	<input type="text" value="18ceabc011"/>
	<input type="button" value="Search"/>
	<a href="#">Insert new Data</a>
	<a href="#">Delete Existing Data</a>
	<a href="#">View Data</a>

Student_Name :	<input type="text" value="Nevil Parmar"/>
Semester :	<input type="text" value="5"/>
Mobile_No :	<input type="text" value="7600616919"/>
E-mail_ID :	<input type="text" value="nevilparmar24@gmail.com"/>
	<input type="button" value="Submit"/>

After I updated an email from [nevilparmar24@gmail.com](mailto:nevilparmar24@gmail.com) to [nevilparmar@gmail.com](mailto:nevilparmar@gmail.com)

## Show.aspx

ID	Name	Sem	Mob_no	email_id
18ceabc011	Nevil Parmar	5	7600616919	nevilparmar@gmail.com
18ceabc012	Bill Gates	5	1234567890	bill.gates@gmail.com

## Delete Page :

User enters ID number in the textbox and when clicks the Delete button, the corresponding record from the database gets deleted.

## Delete Student Details

Enter Student's ID , and press Delete

Student_ID :	<input type="text" value="18ceabc012"/>
	<input type="button" value="Delete"/>
	<a href="#">Insert New Data</a>
	<a href="#">Update Data</a>
	<a href="#">View Data</a>

After successful deletion of bill gates entry.

### Show.aspx

ID	Name	Sem	Mob_no	email_id
18ceabc011	Nevil Parmar	5	7600616919	nevilparmar@gmail.com

Successful Operations message [Dialog Boxes].

## Task 2:

### Login Page :

User id and password is validated against the database. On successful login, create a session and go to product.aspx page.

Login Screen	
User ID :	<input type="text" value="1001"/>
Password :	<input type="password" value="*****"/>
	<input type="button" value="Login"/>

### Product Page :

All available products are listed in gridview with their price. All product names are also fetched in Listbox from which users can select one or more products and press the place order button.

## Product Page

pid	pname	description	cost
1	iwatch	Designed by apple	35000
